Appendix 1 – Understanding the consent form

Where the consent form mentions ‘church community’ this refers the use of content from the event being viewed, and possibly utilised, by churches in the UK and potentially globally. Thy Kingdom Come is a global prayer movement with churches around the world taking part and viewing Thy Kingdom Come related content, including at times using Thy Kingdom Come content in church services. News articles may be produced about the event and distributed by Church of England central and Diocesan communications channels (social media, mailing list, website).

Where the consent form goes on to refer to ‘possible publication including newspapers and/or online’ – This refers to the previously outlined use of photos and/or footage from the event being utilised within news articles about the event or about Thy Kingdom Come more broadly. Online publication refers to the availability of the recording of the event on YouTube, as well as the use of footage and images from the event on social media as well as being used on the Thy Kingdom Come, Church of England and diocesan (Rochester and Canterbury) websites.
